

About: An aspiring Software Developer with a strong foundation in React, JavaScript, HTML, and CSS, seeking an entry-level position to kick-start a rewarding career in the software development industry.

SKILLS

Language	• JavaScript • TypeScript • HTML • CSS • Git
Frameworks	• React
Platform and Tools	• GitHub • WordPress • Medium
Others	• Data Structures • Algorithms • Googling

PROJECTS

AirBnb Experience Clone, [GitHub/Airbnb-Clone](#)

- Developed a simple clone of AirBnb using React and CSS as a part of the project while learning Advanced ReactJs.
- Successfully Structured and passed data using props while employing mapping components to dynamically render content.
- Created the Build and Deployed on GitHub pages.
- ReactJs, React Props, JavaScript, CSS, HTML, Git

Digital Business Card, [GitHub/Digital-Business-Card](#)

- Developed a digital business card using React and CSS.
- Employed an organizational strategy, encapsulating information, skills, and projects into distinct components, showcasing proficiency in front-end development principles.
- Created the Build and Deployed on GitHub pages.
- ReactJs, JavaScript, CSS, HTML, Git

React Facts, [GitHub/ReactFacts](#)

- Created a React-powered static site, skillfully integrating a navigation bar and main section with React and CSS.
- Structured and displayed React facts meticulously within a well-organized, unordered list, exemplifying a fusion of meticulous design and coding.
- Created the Build and Deployed on GitHub pages.
- ReactJs, JavaScript, CSS, HTML, Git

COURSES

The Ultimate React 101, Scrimba

- Achieved an in-depth understanding of modern React. Applied knowledge through solving coding challenges and building projects, demonstrating a practical and comprehensive proficiency in React development.

React for Beginners, FreeCodeCamp

- Completed this course with an emphasis on concepts of Modern React. Applied knowledge through challenging coding exercises and quizzes, showcasing a nuanced understanding of React's complexities and practical implementation skills.

Learn React, CodeAcademy

- Mastered in a deep understanding of React's core concepts, including JSX, React components, proficient use of props, and modern development practices such as state hooks, and effect hooks.

Namaste JavaScript, NamasteDev

- Completed with expertise in core concepts: hoisting, let and const, temporal dead zone. Demonstrated mastery of first-class, anonymous, callback, and higher-order functions. In-depth knowledge of closures, promises, and event loops, highlighting advanced JavaScript comprehension.

EDUCATION

Master of Science (M. Sc.), Siksha 'O' Anusandhan University, Bhubaneswar, IN | CGPA - 9.33

August 2021 - August 2023

Bachelor of Science (B. Sc.), TACT, Bhubaneswar, IN | CGPA - 8.93

August 2018 - August 2021
